

For 2010 – Another New Home is Needed !

Please help the Sadie Gethers family on Johns Island

The Rural Mission has determined that this old home has deteriorated to the point it cannot be repaired and must be replaced.

The Rural Mission will be asking for the financial support and for volunteers to replace this old dilapidated home on Johns Island with a new three bedroom home for Mrs. Sadie Gethers. Mrs. Gethers is 76 years old and shares her home with her daughter and her daughter's children. The new home will be built on this property and the old home demolished upon completion. We hope to bless this needy family with a home that they can move into by the end of 2010.

The Mission, its staff and our wonderful volunteers will be repairing and rehabbing up to 70 homes this year for very low income families and the elderly living in very unsafe, unhealthy and substandard older homes from Johns Island to Yonges and Edisto Islands. Giving the Gethers family hope and a future will be a major priority for the year requiring much support from the Charleston community and elsewhere.

Please contact the Rural Mission at 768-1720 or through the website to learn how you and fellow volunteers can help. Please help support this needed project financially by mailing a donation to the Mission at PO Box 235, Johns Island, SC 29457 – or donate through the website at www.ruralmission.org through *Network for Good*.

Please get your church, business or civic club involved - they will be glad they did !
